

vigilance & reactivity

Our mission: to ensure the smooth operation of your green energy plant and to provide fast operations in safe conditions.

VALEMO is a wholly owned subsidiary of VALOREM which provides three types of services : Operation, supervision, and maintenance of renewable energy plants. Today, VALEMO operates about 40 green energy plants which represents more than 500 MW.

VALEMO bases its agencies as closely as possible to your facilities

VALOREM group is a green energy operator, created in 1994. Independent and pioneer of wind energy in France, VALOREM is now a vertically integrated multi-RE operator covering all sectors: from preliminary studies to the operation and maintenance of renewable energy plants through to construction.

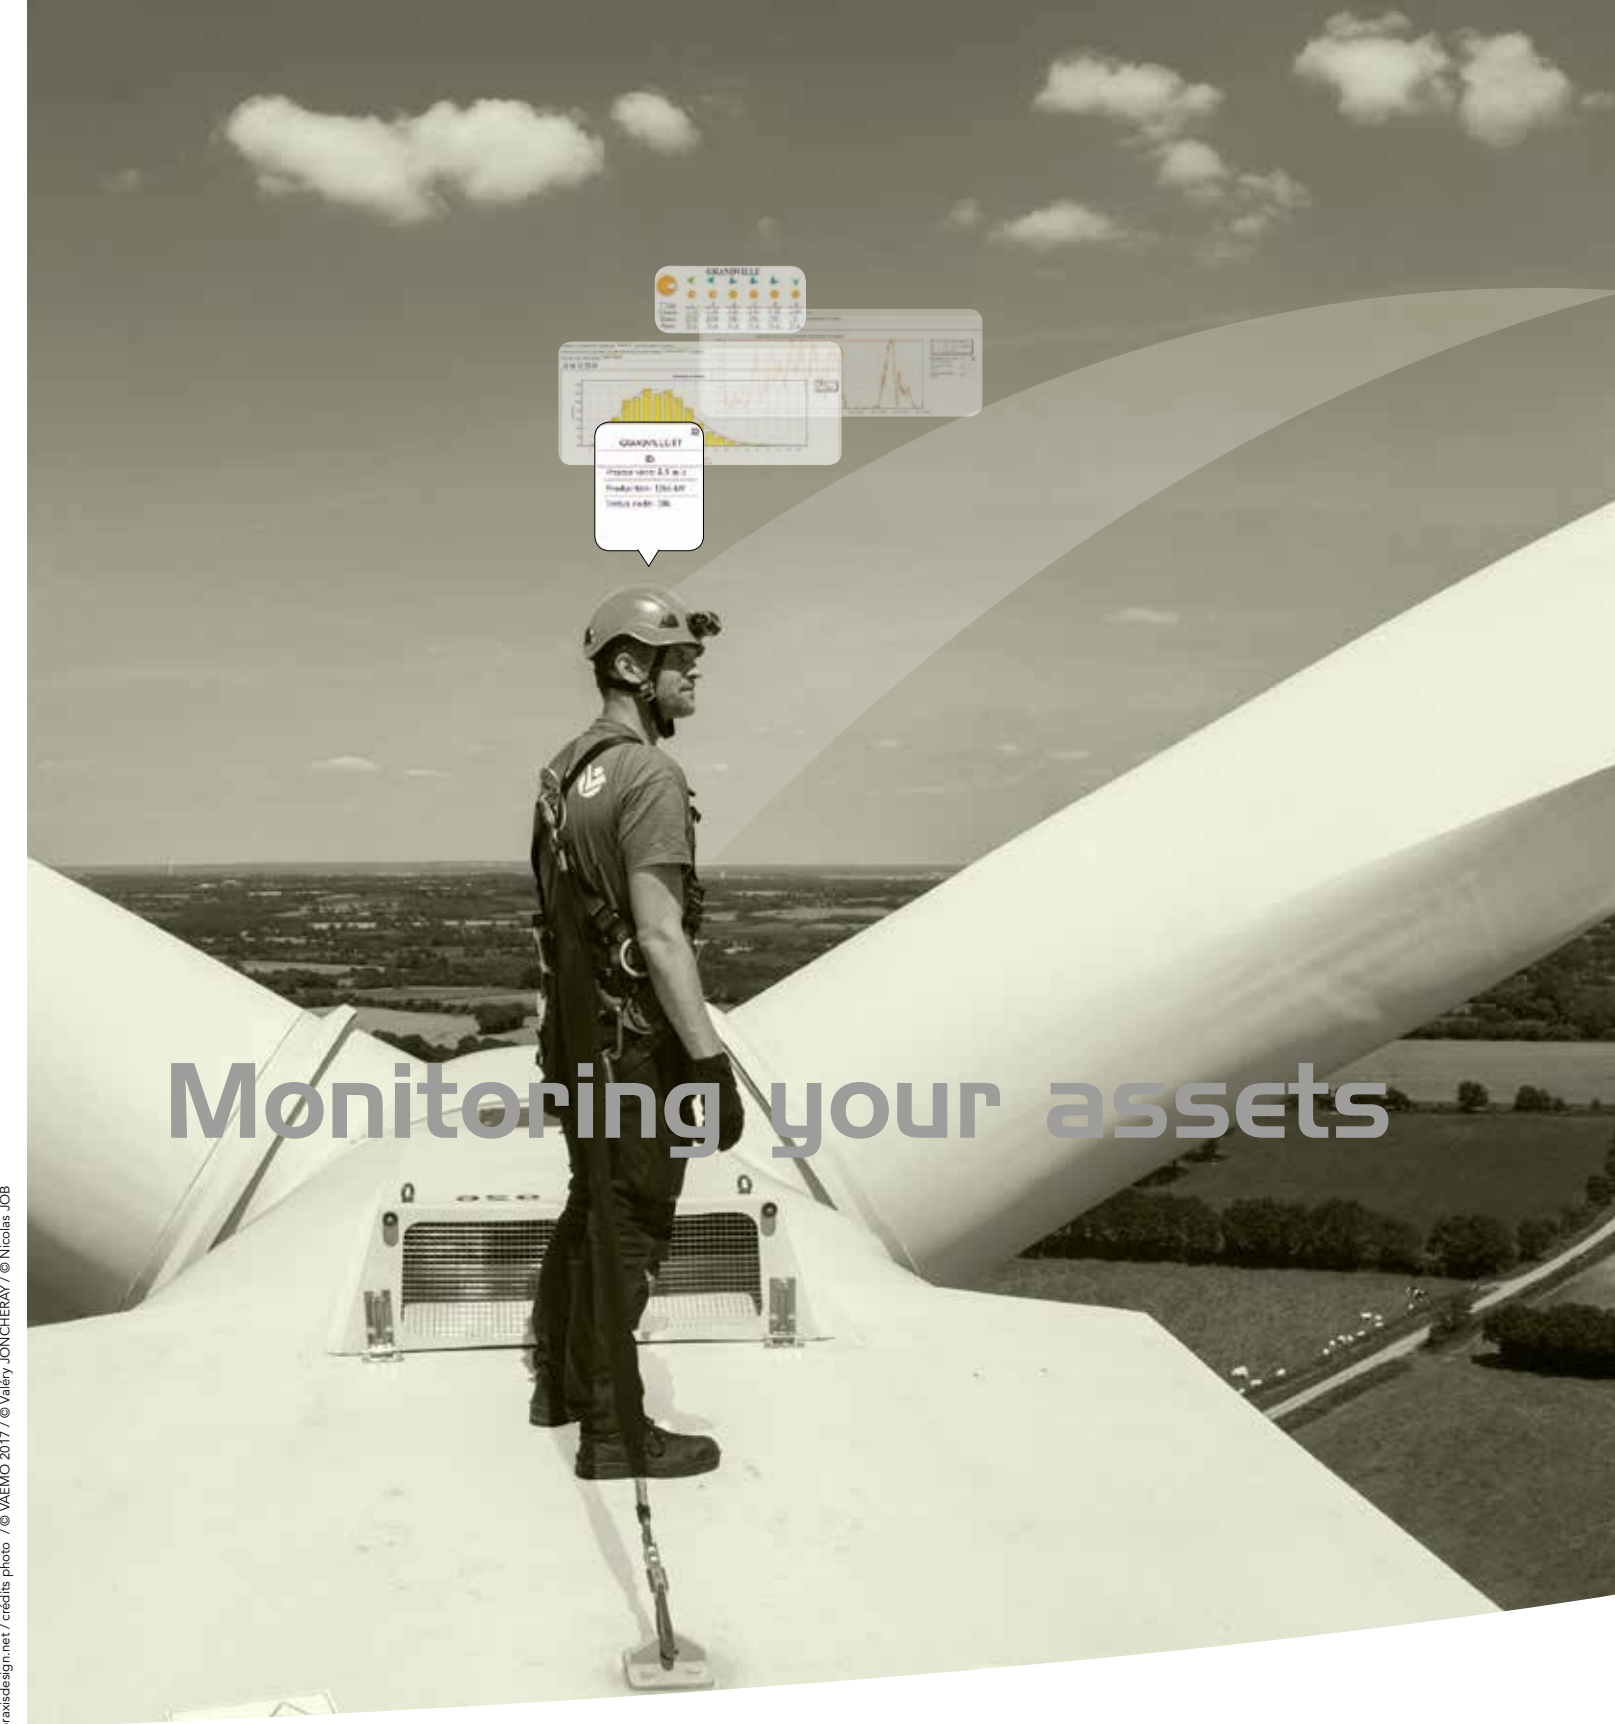

VALEMO is ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007
